EXPERIENCE

01/2013 – Present

Multimedia Producer, Passage Productions – San Diego, California

- I help create commercial-grade video content using my years of video-editing, motion graphic, and audio engineering skills.
- Working through Passage Productions, I've been able to work on projects from science and medical clients such as Discovery, the United States Space Force, Hologic, and United Therapeutics.
- On-set and post-production experience with digital cameras including 360 VR filmmaking and event capture.

11/2021 – Present

Medical Equipment Video Producer, HOLOGIC via Passage Productions

- Using my multimedia skills in audio and video with Adobe CC, I was given assets to create and animate complete videos for HOLOGIC to showcase their medical machinery and technology.

02/2022 – 12/2022

Educational Video Producer, United Therapeutics via Passage Productions

- Doing video-editing, motion graphics, and audio mixing, I've created over 20+ educational clinical product training videos for the United Therapeutics Corporation, a biotechnology company.

03/2020 – 06/2020

Digital Media Designer, Alpha Fiber – San Diego, California

- Responsible for redesigning and creating a new look for the company website as well as producing templates, style guides, and documentation for the company's social media.

03/2015 – 06/2017	<div><div>Fabrication Shop Assistant, Maker Place – San Diego, California</div><div><ul style="list-style-type: none">Assisted in customer relations and helped members with product conception and manufacturing for their personal projects.Became adept with fabrication tools such as advanced woodworking tools, laser cutters, sewing machines, and screen printers.</div></div>
